| 2423 | ONSZ | Warrior/ACH Screw |
| 2424 | ONSZ | Warrior/ACH Post |
| 2426 | ONSZ | Warrior/ACH Tab Assembly (includes buckle) |
| 2427 | ONSZ | Warrior Chin Strap Replacement Kit |

Helmet cover

Helmet Upgrade Kits

The BAE Systems Suspension and Retention Upgrade Kits allow the wearer to enhance the comfort and protection level of the issue helmet by removing the issue chin strap and suspension system and installing the Upgrade Kit. The kit will work with all makes of PASGT helmets using the 8-hole configuration, as well as the ACH.

Suspension and retention kits

Ballistic Helmets

BAE Systems' helmets are the next-generation in lightweight, high-performance protection. All of our helmets are designed for maximum comfort and protection. All helmets incorporate the latest technology in ballistic composite construction. We offer a range of helmet options to suit your mission needs, with varying weights and protection levels, as well as ballistic and non-ballistic face shields.

- Two-component polyurethane paint allows decontamination after exposure to liquid chemical agents
- Adjustable and replaceable standard 4-, 3-, and 2-point chin straps
- Comfort pad or webbing suspensions available on all combat helmets
- State-of-the-art ballistic composite construction
- Integrated outer shell and suspension system provides a stable, comfortable fit
- Optional integration compatibility with NVG systems

KEY FEATURES

- Designed for superior performance in the harshest conditions
- Designed for optimal comfort
- Wide range of helmets to address specific weight and ballistic requirements
- Combat proven

Helmet Line

The **Warrior Helmet** line offers a cutting-edge design that provides a pad-fit suspension system and a 4-point chin strap. The design provides the user with increased aural perception, eases acquiring a sight picture, and does not interfere with a body armor system.

The **Mid- and High-Cut Helmets** share many of the same features as the Warrior helmet but offers a raised ear for integration with communications headsets.

Standard Mil-Spec design **USMC Lightweight Helmet** offers coverage from ballistic threats and fragmentation. This helmet incorporates 1½" webbing suspension and a leather headband and features the BAE Systems-designed 3-point chin strap for stability.

Shown with a DHB135* the **Combat Vehicle Crewman Helmet** includes a Nomex inner liner with slit pad set for comfort.

*Not included.

The **Thin Shell Combat Vehicle Crewman Helmet** provides even lighter weight and lower profile ballistic protection.

Helmet Specifications

| STYLE # | DESCRIPTION | SIZES | WEIGHT (MED. HELMET) | 17 GRAIN V ₅₀ | 9MM | EQUIVALENT TO NIJ LEVEL IIA | EQUIVALENT TO NIJ LEVEL IIIA |
|---------|---|-------|----------------------|--------------------------|----------|-----------------------------|------------------------------|
| 2412 | Warrior HB Very lightweight, very high ballistic protection | S-L | 49 oz | 2200 fps | 1400 fps | | • |
| 2420 | HBC Warrior Solid ballistic protection | S-L | 55 oz | 2000 fps | 1239 fps | • | |
| 2425 | Warrior CL Lightweight, good ballistic protection | S-L | 43 oz | 1900 fps | 1055 fps | • | |
| 2060 | High Ballistic CVC Excellent ballistic protection, complete with liner, pads, and MK 1697/G communications kit | S-L | 65 oz | 2250 fps | N/A | N/A | N/A |
| 2075 | Standard CVC Good ballistic protection, complete with liner, pads, and MK 1697/G communications kit | S-L | 49 oz | 1500 fps | N/A | N/A | N/A |
| 7500 | Warrior II ACH Standard Excellent ballistic protection, complete with a pad-fit suspension system and 4-point chin strap | S-XL | 49 oz | 2200 fps | 1400 fps | | • |
| 7501 | Warrior II ACH Mid-Cut Excellent ballistic protection with raised earcups for communication piece compatibility, complete with a pad-fit suspension system and 4-point chin strap | S-XL | 41 oz | 2200 fps | 1400 fps | | • |
| 7502 | Warrior II ACH High-Cut Excellent ballistic protection, complete with a pad-fit suspension system and 4-point chin strap | S-XL | 39 oz | 2200 fps | 1400 fps | | • |
| 7503 | Warrior II ACH IIIa Same features as the Warrior II ACH with NIJ Level IIIa equivalent ballistic protection | S-XL | 49 oz | N/A | 1400 fps | | • |
