

# Armored Sprinter

Designed specifically for commercial applications, the armored Sprinter van is a low-profile vehicle with a versatile configuration and great cargo capacity. Its roomy interior can accommodate up to 10 passengers. It is excellent for city driving and the transportation of personnel in areas where extra protection is needed. The high-roof model allows for a variety of tasks to be done inside the vehicle, making it a great mobile workshop. The vehicle is available in both left-hand and right-hand drive models, with parts available worldwide, making it an ideal vehicle for overseas operations.
